Full-stack Web Developer with hands-on experience building and maintaining production web applications end-to-end, from requirements and development through deployment. Primarily working with Express.js, EJS, and MySQL, with additional experience in Laravel, React, and Next.js, and self-hosted deployment using PM2. Integrates AI-assisted development workflows to increase delivery speed.

WORKING EXPERIENCE

Kisel Group, South Jakarta, On-site

Jul 2024 – Present

Full-stack Web Developer Staff

- Deliver and maintain full-stack projects end-to-end, from requirement analysis through deployment.
- Build production applications primarily with Express.js, EJS, and MySQL, deployed via PM2 on self-hosted infrastructure.
- Also contribute to projects built with Laravel, jQuery, Bootstrap, React, and Next.js.
- Collaborate with analysts, backend engineers, and management to plan, estimate, and execute project timelines.
- Manage end-to-end deployment processes, including production releases and post-deployment monitoring.
- Integrate AI-assisted tools (Claude, GLM) into the coding workflow to boost development speed and accuracy.

PT. Lawencon International, South Jakarta, On-site

Mar 2024 – May 2024

Trainee Full-stack IT Bootcamp

- Selected through a technical coding assessment for a 4-month intensive Fullstack IT training program.
- Completed hands-on training in OOP, Java, PostgreSQL, and basic Spring.

PT. Bisa Artifisial Indonesia, South Jakarta, Remote

Feb 2022 – Jul 2022

Internship Web Developer

- Rebuilt and extended features on an existing production project using Laravel, Bootstrap CSS, and JavaScript.
- Integrated backend APIs in collaboration with the backend team, from feature development through deployment.
- Implemented UI from provided designs and resolved functionality issues surfaced during testing.
